

Mohamed Mansour Sayed

AI ENGINEER

Address: Egypt, Cairo.

GitHub: <https://github.com/Mans404>

LinkedIn: [linkedin.com/in/mhamedmansour/](https://www.linkedin.com/in/mhamedmansour/)

Mobile: +20 106 678 9332

Portfolio: <https://Mans404.github.io>

E-mail: mhamdimansur@gmail.com

Professional Summary:

AI Engineer specialized in Agentic AI and RAG systems, with hands-on experience building end-to-end intelligent solutions using LangChain, CrewAI, and vector databases. Proven ability to automate complex workflows - reducing manual effort by up to 40%. Trained by NVIDIA in Generative AI and AI Agents, with a strong foundation in Data Science and Python-based backend development.

Education:

Bachelor of Electronics & Communication Engineering

2021 – 2026 (Graduated)

South Valley University- Faculty of Engineering - Grade: Very Good

Work Experience:

- AI & Data Science Intern 6 months DEPI / IBM (Remote)

June 2025 – Dec 2025

Completed IBM's professional Data Science program covering the full data science lifecycle: Python, SQL, data analysis & visualization, machine learning, deep learning and Hugging-Face.

- Automation Engineer Intern ITIDA / Phoenix (On-Site).

Aug 2025 – Oct 2025

Developed n8n automation workflows for job scraping via HTTP and RSS feeds, integrated an AI agent for content rewriting, and auto-published to WordPress — fully automating the publishing process with zero duplicate posts via automated deduplication.

Projects:

VectorChat RAG App : <https://github.com/Mans404/VectorChat>

Full-stack RAG system with FastAPI, Postgresql, and PGVECTOR that ingests documents, generates embeddings, and enables intelligent semantic search powered by LLMs. Multi-provider support (OpenAI/Cohere) with real-time indexing and context-aware question answering.

Movie Recommendation System DEPI Graduation Project: <https://github.com/Mans404/DEPI-Project>

Built and deployed an end-to-end content-based movie recommendation system (KNN + cosine similarity, 9,700+ movies) REST API via FastAPI with a live web UI.

Arab Community Data Science Survey - Insights Dashboard: <https://github.com/Mans404/Arab-Survey>

Analyzed 23,000+ survey responses to extract actionable insights about the Arab Data Science community.

Courses & Certificates:

- Building AI Agents NVIDIA: learn.nvidia.com/certificates?id=mtu9H8NGQqeJvexbJS7c-Q

Jan 2026 – Feb 2026

- AI & Data Science DEPI / IBM

Nov 2024 – Dec 2024

- Machine Learning NTI / HUAWEI

Nov 2024 – Dec 2024

- Backend: Python, FastAPI

Feb 2026 – June 2026

- Deep Learning NTI

Oct 2025 – Dec 2025

Technical Skills:

-AI / ML

TensorFlow - scikit-learn - NLP - Computer Vision (OpenCV) - Prompt Engineering.

-Agentic AI

LangChain - LangGraph - CrewAI - RAG Pipelines - Vector Databases (PgVector - Qdrant) - Tool Calling - Agentic Design Patterns - MCP.

-Data Analysis

Pandas - NumPy - Matplotlib - Statistical Analysis - Data Visualization - Web Scraping - EDA.

-Programming Python - TypeScript - Java - SQL (PostgreSQL) - FastAPI - Django - Alembic - SQLAlchemy

-Soft Skills Teamwork - Communication - Strategic Planning - Time Management - Problem-Solving

Languages:

Arabic: Native - English: Fluent
